

The library learning centers in the Salt Lake City School District exist to provide informational resources for teachers and students, assist students in developing literacy and research skills, and offer recreational reading opportunities. Our goal is to have a current, engaging, relevant, and diverse collection, providing information on a wide variety of topics geared to the ages of our students. When selecting books, we consider the needs of the core curriculum and the interests of our students. We strive to keep current informational materials and recreational reading titles as our budgets allow.

Parents are encouraged to take an active interest in their child's reading materials. They should have discussions with their child about what is, and what is not, appropriate for their child. Our library serves a broad age and interest range. Parents and students should realize that not every book in the library will be appropriate for each child in the school. If a title is not appropriate for a particular student, she or he is encouraged to return it and find a book that is a better fit. The Library Technology Teacher is happy to help your child find an appropriate book that meets her or his interests.
