

2013-2014

Dear Parents/Guardians,

Welcome back. My name is Deborah Milan-Niler and I am one of the Salt Lake City School District Nurses. My office is located at Glendale Intermediate School. As a school nurse, I have an obligation to provide quality healthcare in order to maximize the educational growth and development of your student. I am eager to educate you and your child on any issue related to health and well-being.

Quality healthcare is a top priority for all of our children. So often, parents /guardians and teachers are unaware of the healthcare services available. The school nurse's goal is to provide quality care for the student with an acute or chronic health condition, while promoting and maintaining optimal educational opportunities in the school setting. My services include: Nursing health assessments, school health care plans health screenings, referrals, immunizations, classroom teaching, health counseling, and much more. I would like to assist you and your family with any medical/or mental health concerns you may have. Please feel free to contact me at: 801-974-8340 with any questions or concerns. I am available to assist you in any way I can.

Thank you,

Deborah Milan-Niler, MS, RN

Salt Lake City School District Nurse
